Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**11/03/21 - 11/09/21**

## **Wednesday-Tuesday**

- A storm system will move through northern California on Wednesday and Thursday, producing gusty winds (strongest across far northern California) and generally light to moderate precipitation
  - There is a slight chance of thunderstorms across northern California with this storm
- Additional storm systems will move through primarily far northern California through the end of the week and weekend, with precipitation expected to remain light to locally moderate
  - Coastal flooding is possible across the Humboldt Bay area Friday and Saturday
- A stronger storm system could move through northern California on Monday and Tuesday of next week, with moderate to locally heavy precipitation possible
  - Accumulating snow, potentially heavy, is possible in the mountains of Coastal and Inland Regions
